About Us

Advancelab provides reliable solutions to complex construction challenges taking fresh creative approaches.

We have positioned ourselves as the premier facility solution provider for the scientific industry; designing, building and delivering quickly without fuss.

Our expertise spans the construction industry spectrum, from small scale renovations to multi-million dollar projects.

We are a Singapore Government registered supplier. Having taken our brand of expertise globally, we now export laboratory steel casework, fume hoods, laminar flow cabinets and clean booths to 30 countries, covering all continents.

We have regional offices throughout South East Asia and within the span of the next 5 years, we are looking to establish ourselves globally.

We are a people-oriented setup, empowering our people to be the best they can be.

Our teams embody strength, performance and passion.

Being an equal opportunity employer, our staff hail from a multitude of cultures, races and religious backgrounds.

Facility Provider

- Feasibility Studies
- Designing Facilities
- Design and Build Services
- Construction
- Project Management
- Facility Maintenance
- Critical Call Out Contracts
- BCA L4 Contractor (CR06 - Interior Decoration)
 - Project up to 6.5 million

Manufacturing

- AdvancelabPro Steel Casework
- Fume Hoods
- Laminar Flow Cabinets
- Clean Booths
- Polypropylene Casework
- Plastic Fabrication
- Stainless Steel Cleanroom Furniture

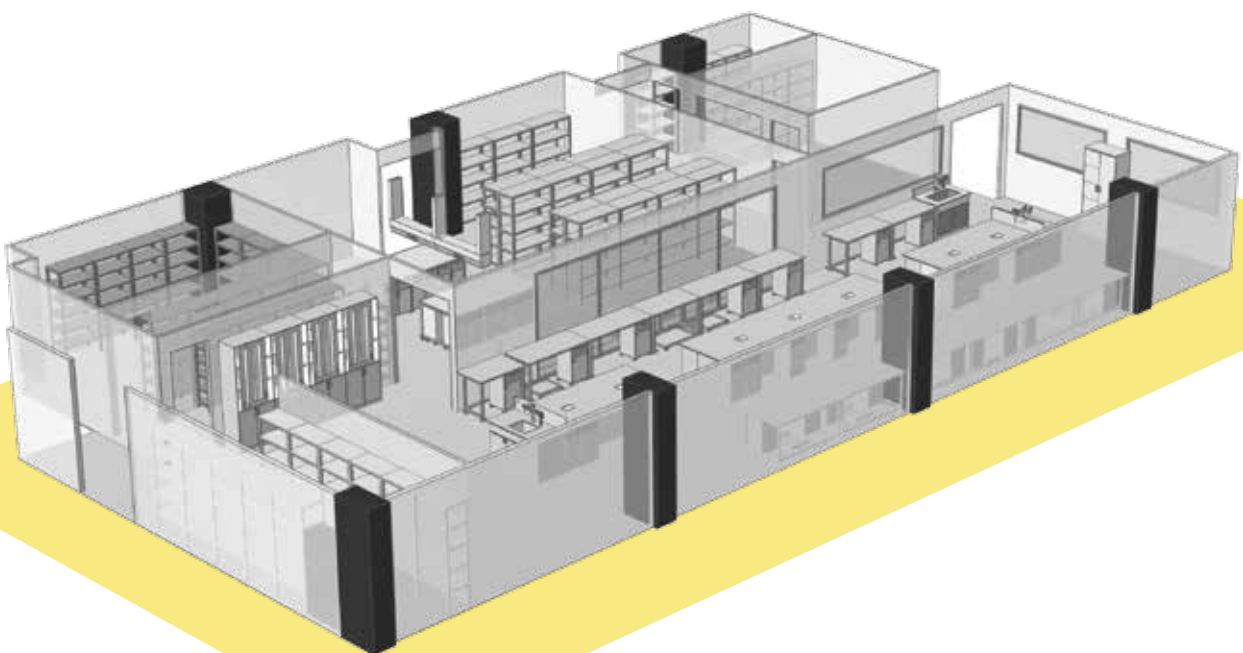

Construction

Our primary direction is the construction of world-class facilities that serve the scientific community, industry and research organisations

- National Level First Response Facilities
- CBRE Facilities
- Pharmaceutical Companies
- Life Science
- Manufacturing
- Oil and Gas
- Food and Beverage
- Testing and Certification
- Tertiary Institution
- Private Schools
- Automotive
- Energy
- Chemicals

Our Mission

- To build a company that our people are proud of, passionate about and have ownership of
- To deliver quality service and build lasting relationships with our clients
- To provide the best customer experience
- To be recognized as an innovative company that is globally acknowledged as a market leader in complete facility solutions
- To build scientific facilities and corporate offices that are cutting edge whilst at the same time delivering maximum value
- To manufacture world class products at competitive prices
- To offer custom solutions for various client requirements where others fail to deliver
- To deliver fast track projects

Our Core Values

Quality

Building excellence

Integrity

Doing the best we can for our customers and employees

Resourcefulness

We are a can-do, get-it-done company

Customer Satisfaction

Building trusting relationships

Innovation

Engineering solutions that work

Passion

We are personally committed to everything we do.

Excellence & Responsibility

We embody excellence, delivering on our promises.

Mission

Core Competencies

- Designing and Building Facilities
- Architectural Design
- Mechanical and Electrical Design
- Laboratory Casework Manufacture
- Laminar Flow Manufacture
- Clean Booth Manufacture
- Exhaust Ducting Manufacture and Installation
- High Purity Gas Distribution System Design and Installation
- Plastic Fabrication - Polypropylene, PVC and PVDF
- Stainless Steel Fabrication
- Sheet Metal Fabrication
- ULPA, HEPA and activated carbon filtration and technologies
- Fume Hoods & Laminar Flow Testing and Certification

Core Competencies

Research, Development & Manufacturing

Our manufacturing model embraces vertical integration - meaning we try to keep the whole process in house reducing multiple margins in the supply chain. This translates to cost savings for the market and less coordination and hold up costs for us.

A significant portion of our business is spent developing new products.

We manufacture under ISO 9001 and 18001, underscoring our support to both quality manufacturing systems and safety

Testing & Certification

Process & Manufacturing

ISO 9001

Safety

ISO 18001 & BIZSAFE STAR

Fume Hoods

ASHRAE 110-95
BS 5276
EN 14175

Ductless Fume Hoods

ASHRAE 110-95

Air Quality & Filtration

ISO 14644.1

Electrical Safety

IEC 61010-1

Safety Storage Cabinets

NFPA 30, USA

Sales & Distribution

We manage a network of agencies, independent distributors, dealers and sales representatives that provide localised services and maintenance programs.

Installation & Warranties

Global warranties are also a huge part of our commitment.
